🧠 SKILLS

Programming Languages

Java, Python, C, C++

Technical Skill

Html, CSS, Javascript

Tools /Platform

VS Code, Git & GitHub

Database

MySql

📜 CERTIFICATES

Google Data Analytics

Coursera

Introduction To Generative AI

Google Cloud

SKILL-A-THON 2022

UI-Path

🧩 TRAINING

JAVA Training by Infosys

September 2024 – October 2024

I have learnt the core topics, such as object oriented programming (OOP) concepts (inheritance, polymorphism, encapsulation, and abstraction), data structures, exception handling, multithreading, and Java's collection framework.

👤 PROFILE

Motivated artificial intelligence and machine learning engineering graduate with understanding of machine learning concepts and practical experience in frontend development, seeking to contribute to and advance innovative projects.

🎓 EDUCATION

SSLC

Sharada High School Cherkady

June 2018 – March 2019

PUC

Viveka PU College, Kota

June 2020 – March 2021

Bachelor of Engineering in Artificial Intelligence and Machine Learning

Moodlakatte Institute Of Technology, Kundapura

August 2021 – June 2025

📁 PROJECTS

Online Bus Ticket Booking System

- Users can easily search for available routes, compare prices, and choose their preferred seats without the hassle of visiting physical booking counters.
- Passengers can avoid long queues at ticket counters and potentially find discounts or promotions offered exclusively online.

Brain Tumor Prediction Using Deep Learning

- Developed a deep learning model for automated brain tumor segmentation and classification from MRI scans.
- Deployed a Flask web application to provide a user-friendly interface for uploading MRI scans and receiving real-time brain tumor predictions, enabling remote access for medical professionals.
